

What is a MHBG?

The MHBG is a program sponsored by SAMHSA. It provides funds and technical assistance. GBHWC goal is to use the funds to provide comprehensive, community-based mental health services to adults with serious mental illnesses and to children with serious emotional disturbances and to monitor progress in implementing a comprehensive, community-based mental health system.

What are some of the Purposes of a Block Grant?

- * Grantees use the block grant programs for prevention, treatment, recovery support, and other services to supplement Medicaid, Medicare, and private insurance services. Specifically, block grant recipients use the awards for the following purposes:
 - * Fund priority treatment and support services for individuals without insurance or for whom coverage is terminated for short periods of time.
 - * Fund those priority treatment and support services that demonstrate success in improving outcomes and/or supporting recovery that are not covered by Medicaid, Medicare, or private insurance.
 - * Fund primary prevention by providing universal, selective, and indicated prevention activities and services for persons not identified as needing treatment.
 - * Collect performance and outcome data to determine the ongoing effectiveness of behavioral health promotion, treatment, and recovery support services.
